HANDS-ON WORK EXPERIENCE

Electronics class — *Spokane Valley Tech, Salvatore Lorenzen*

2025 - PRESENT

This class covers everything from electrical components and applied mathematics to microcontrollers.

Remodeling and Woodwork — *Patch Works, 5002 N Oakland Rd Otis Orchards-East Farms, WA 99027*

Summer of 2025

Over last summer I was hired by Patch Works on to a team of 3-4 where we finished multiple remodelled buildings and a wooden deck.

Bee Hive Monitor project — *Hardware/Software design and production*

2025- PRESENT

Started summer of 2025, I started designing and creating bee hive monitors. This involves **woodworking** bee hive boxes, creating **internal circuitry** and creating **software**. Future designs are presently in development.

Engineering class, *Spokane Valley Tech, John Traxler*

2023

This class focused a fast-paced introduction to the modern engineering workflow, shifting the focus from theoretical sketching to CAD design and Additive Manufacturing (AM).

EDUCATION

Spokane Valley Tech and Skill Center, 115 S. University Rd., Spokane Valley, WA 99206

2023 - PRESENT

Traits

Problem-solver,
persistence,
self-Organized,
Collaborative, Efficient
Communicator,
Open-minded,
Inquiring, Positivity,
Flexibility, Reliability,
Adaptability

Skills

Soldering, woodwork,
electrical design, CAD
design (Fusion 360),
coding
